

You people are the most f\*\*\*ed up people that I ever came in contact with. I thought that is was the land of the free. I am really begaining to think that I was worng. We live in a country that we are to have these rights, but on an daily basics our rights are being taken for us. Just like with The Bob and Tom Show,Howard Stern, and all the other that are on the air, they are being censored Only because, not more than ONE HUNDERED people are B\*\*\*ing about what they have on the shows. I never thought that I would see the day the people can not turn the channel, I guess that if it dont come with a remote it is just impossible. What about the rights of the rest of us that want thing left along, I am thinking that we just dont matter. JUST LEAVE THING ALONE THE GOVERMENT DONT HAVE TO BE INVOLVED IN EVERYTHING,AND TAKE EVERYTHING AWAY.
